

**Feeling overwhelmed with a mountain of laundry and ironing to do?** It is called: *"too much on your plate or time poor!"*

Your current situation probably goes something like this: You have a demanding business. Your businesses washing machines and dryers are going flat out, too small capacity. You feel like you're on a hamster wheel, time poor and have too much on your plate. The last thing on your mind is to spend high labour costs, your spare time doing the laundry. Stressful, we understand and sympathize!

People often outsource house keeping, bookkeeper, window washing, and other tasks that they either don't have time for, don't have the experience to do it properly, or simply don't want to do it. But most people never consider utilizing a laundry service until they actually research the benefits and realise cost savings.

If you are still not convinced that our commercial laundry service will reduce costs and improve efficiencies, contact us to talk it through, we can answer any of your specific questions, or if you're ready to get started, call:

# Why outsource?

We know what businesses require of a professional commercial laundry service because we have several years of experience in this industry. From independently owned bed and breakfast, restaurants to physiotherapists, retirement homes, beauty salons and uniforms that serve a vital function in a variety of small and large business settings.

**THE DRY CLEANING LAUNDRY HUB** understands the needs of businesses. We have purposely decided to specialise ourselves in this service sector, and to meeting businesses needs with a quality commercial laundry and dry cleaning product.

As business owners know, it is critical to make decisions that boost productivity, whilst lowering costs. The Dry Cleaning Laundry can certainly assist your business with lowering costs.

**THE DRY CLEANING LAUNDRY HUB** offers your business a number of key benefits that can help your small or large business run smoothly and improve your company's profitability in the following ways:

**FREE COLLECTION AND DELIVERY:** We offer Free Collection and Delivery. This is like having as your next door neighbour, a professional commercial laundry service provider. We are as close as your front doorstep without the luxury costing you a cent.

**PRODUCTIVITY AND EFFICIENCY:** Without the use of commercial laundry service like ours, to clean your business' linens, they must be cleaned in-house by your own staff. The process of sorting the linens, loading them into the washer, transferring them to the dryer, ironing them (hopefully), folding them and packing them in your business space can be very expensive. This whole process requires a tremendous amount of energy and water. You will also need to purchase product, chemicals, machines, parts and more. In fact, this is a process that may require multiple full time employees for even the smallest of businesses. Further, it must be completed perfect on a daily basis or your business can come to a complete stop.

By outsourcing this task to **DRY CLEANING LAUNDRY HUB**, you and your employees can spend your days servicing customers and tending to more important business matters that are worthy of your skills, time and money.

**SAVE ON UTILITY COSTS:** In addition to the cost of buying the equipment and supplies as well as maintaining and repairing the equipment, you should consider that these machines will use a significant less energy and water to operate. By using less water, this means less water will be discharged into the local environment. You can effectively keep energy and water costs for your business low by outsourcing your laundry cleaning needs to **DRY CLEANING LAUNDRY HUB**.

**ELIMINATING COMPLIANCE CONCERNS:** Depending on your industry, an added benefit associated with outsourcing your laundry to DRY CLEANING LAUNDRY HUB is ensuring that your linens are cleaned according to local, federal and Australian regulations. Most businesses are required to meet certain cleaning guidelines, and failure to meet these guidelines can be costly. For example, Australian federal regulations dictates how linen for a medical centre should be cleaned.

By using a **DRY CLEANING LAUNDRY HUB**, you can avoid the hassle and costs associated with ensuring your laundry are cleaned according to regulations.

**IMPROVES PRODUCTIVITY AND LOWERS COSTS:** Using the **DRY CLEANING LAUNDRY HUB** laundry service enables you to improve productivity with your workers, allowing them to use their skills more effectively. Further, the many costs of owning and using your own commercial cleaning equipment should be analysed fully, as these expenses will be eliminated from your budget if you choose to outsource linen cleaning to a third party. These financial benefits are coupled with the ability to eliminate the risk of non-compliance of linen cleaning regulations.

**Contact the Dry Cleaning Laundry Hub on 0478 981 777 and speak to Martin or Emma on (08) 9309 3809**

Our dry cleaning and specialised laundry services also includes valet and dry cleaning services for staff uniforms and guest laundry as well as curtains, bed covers, duvets and duvet covers, pillows and cushions, carpets (no-fixed) and mats, couch and chair covers and various other specialised items on request.

We ensure efficient handling of all guest laundry and dry cleaning requirements.
