

Feeling overwhelmed with a mountain of laundry and ironing to do? It is called: *"too much on your plate or time poor!"*

Your current situation probably goes something like this: You have a demanding job and / or family. Your home washing machine and dryer is going flat out, too small and cannot cope. You feel like you're on a hamster wheel, time poor and have too much on your plate. The last thing on your mind is to spend your precious weekend, ironing! Stressful, we understand and sympathize!

People often outsource their lawn care, house cleaning, window washing, and other tasks that they either don't have time for, don't have the experience to do it properly, or simply don't want to do it. But most people never consider utilizing a laundry service until they actually try out our service and end up loving it!

If you are still not convinced that our laundry & ironing service will make your life much easier for you, contact us to talk it through, we can answer any of your specific questions, or if you're ready to get started, call:

DRY CLEANING LAUNDRY HUB

Dry Cleaning Laundry Hub

Let us be your Mum

Just as many homes have garden services for convenience, the **"Dry Cleaning Laundry Hub"** offers a convenient laundry, ironing & dry cleaning service direct to your home doorstep or business with:

**FREE Collection & Delivery
Or: Easy drop off & collect**

www.thedrycleaninghub.com.au

There's dozens of benefits to outsourcing your laundry and/or ironing to the DRY CLEANING LAUNDRY HUB, however here are the top benefits to consider choosing us:

Affordability: Dry Cleaning Hub charges just \$5.50 per kilo of laundry. Ironing is \$3 per item including GST. This also includes free pick up, folding, repackaging and delivery! Clothes are ready to go straight into your wardrobe as though they are new. Too easy!

Convenience: Dry Cleaning Hub will set a weekly schedule for you and will simply pick up and drop off your laundry. This completely removes the time and hassle associated with doing your own laundry.

Speed: We pick up your laundry and return it to you within 48 hours. That's quicker than you can do it yourself and we charge a fraction of the cost! Research has shown it will save you 14 hours in a week for a family of 4 by outsourcing your laundry and ironing. That is a lot of time saved!

Cost: By the time you add up the cost of purchasing a high quality washer and dryer, the cost of running your washer and dryer, the cost of laundry detergent, and the cost of your time to do the laundry, in almost every situation you end up financially ahead by choosing us to take care of your laundry for you. Do the sums.

The cost of your time to consider: As the old adage goes, time is money. What is an hour of your precious personal time worth to you? When is it worth it, to hire help at a much lower cost than you value your valuable personal time? Is it better to prioritize your time, and hire help for those tasks that you find stressful, an irritant and time consuming? It is true for most, that you could be better off spending your time, prioritizing other more important activities, and assigning help for lesser activities that you don't have the time! Don't work harder and longer hours which will burn you out, rather, work more effectively and focus your energies to release time for rest and recuperation, to name one important activity. Stress is a killer.

Professional Results: Our specialty is dealing with your laundry & ironing, so we have developed techniques and a wash process to make sure your clothes are gently cleaned, stains are removed, and your clothes are returned to you in pristine condition.
